RUBRUM, MELPOMENE—Rich carmine. Large flowers on 3 to 4 ft. stems, late. Each.....	.50

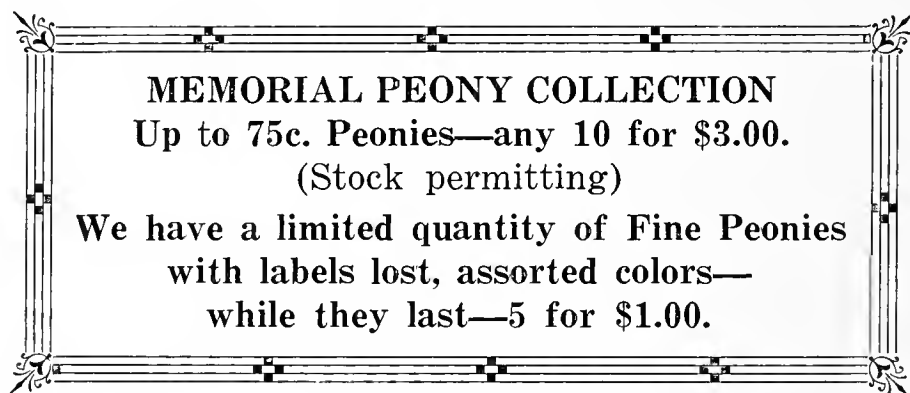

PEONIES

We have growing in field more than 200 varieties of peonies and have 100 kinds in cold storage for spring planting.

The bulk of our sales are to people who drive in for many miles around to see the peonies "face to face" when they are in bloom, and order for fall delivery.

However, experience has proven that peonies may be, and are, successfully planted in the spring while plants are dormant; hence, the cold storage.

Prices are for 3 to 5 eye divisions.

AVALANCHE, 87—One of the finest whites. Mid-season, each..	.50
EDULIS SUPERBA, 76—Clear, deep pink. Very early, each....	.50
